

An Eastern Fantasy World

Data Visualization of Eastern Fantasy Novels and Anime

Description

The Twelve Kingdoms is a series of fantasy novels wrote by Fuyumi Ono, which was made into an anime in 2002. In Bilibili (like Chinese Youtube), it has over 4,437,000 views and 106,000 screen bullets. I'd like to invite you to enjoy the story of the Twelve Kingdoms through data visualization.
